PERSONAL PROFILE

I am a full-stack web developer skilled in both front-end and back-end development. I have a proven history of working with private companies & government agencies in Indonesia, and international clients from platforms like Upwork, through freelance projects and full-time remote roles.

WORK EXPERIENCE

Full-Stack Developer (Remote)
Onero Solutions | September 2021 - November 2024

- Working on external and internal company projects
- Analyze system requirements and perform design
- Perform application development and do continuous maintenance

Freelance Full-Stack Developer (Remote)
Self-employed | Januari 2020 - Present

- Communicate with clients to analyze their needs
- Build applications based on the design derived from the client needs analysis
- Deliver high-quality outcomes to clients on **Upwork**, local Indonesian clients, and others

Web Programming Tutor (Private)
Teamtrainit.com | September 2019 - September 2021

- Teaches students/clients privately both face-to-face and online to be taught how to make website applications according to the real case studies until the application is finished/ready to use

EDUCATIONAL HISTORY

Learn Self-taught Programming
September 2019 - Present

- Learn website programming from various sources: Youtube, internet articles, Udemy, etc.

STMIK El Rahma Yogyakarta
Informatics | September 2018 - October 2024
